A REMINISCENCE OF MRS. WASH-INGTON. (From the Philadelphia Ledger.)

The death has been announced in the Ledger of Mrs. Elizabeth Stout Vaughan, at the advanced ago of nine-ty-seven. She died on Saturday, September 25, and a relative has sent us a letter communicating some interesting facts in reference to this venerable lady. ffe writes: "As one of the connecting links be-tween the period of President Wash-

ington and the present, Mrs. Vaughan's death deserves more than a passing no-tice. Her father was employed in one of the Government departments, both in this city and New York. The writor of this has often listened to the interesting and intelligent description of events as related by Mrs Vaughan, which occurred in the days first sucoceding the nation's birth. She was then only a child, but having a welldisciplined and retentive memory, her relation of incidents were clear and instructive. One reminiscence concerning the domestic life of Washington and his wife interested me greatly, and she spoke of it with pride and animation. She had occasion to visit Mrs. Washington, then residing on High street, near Sixth, on a business errand. Being admitted by the servant, she was requested to wait a few moments and RIRST-CLASS PIANOS AND ORGANS. Mrs. Washington would see her. Directly the door of an apartment, opened, and the President passed out, bestowing some kindly remark upon the young visitor. Looking through the open doorway of an adjoining room she observed Mrs. Washington in the act of rising from a cushioned knoclingstool. A prayer-book was on a stand in front of the stool. Mrs. Vaughan feelingly related how deeply impressed she was with the devotional scene, followed Anclinati, Now Anchor and Anchor and Anchor and Anchor and Anchor Age and Anchor and Anc risitor was not permitted to leave without a token of hospitality, which child-

From the Turner's Falls Reporter. He came in with a modest air and looked around inquiringly. The bright look of intelligence which shone from out the weather beaten lineaments of his countenance, and the thin, tapering ers, betokened the tramp printer, All he wanted was a couple of days' work to push him on to the next town. When he went to work he did not remove his cont, his modesty being too excessive. It was a "solid dig," and he held to it nobly until the "take" was finished, then with a bland and suppliant look at the copy hook, he quietly inquired if the ordinary Massachusetts paragraphist ever stopped long enough to take a drink. On being informed that it was against the rules of the office to make more than two breaks AT WHOLESALE AND RETAIL in a column, he walked over to his minutes, and then stole out of the door as silently as he had entered. One of the boys went over, and taking up his stick, read aloud its contents us follows: "Cursed be thy slanderers, O Alock

## Republican County Ticket.

For County Treasurer, GEORGE M. WOOD. For County Surveyor, GEORGE V. LORING.

MR. JAMES LICK, of California, has not backed out of all his bequests for the public good. He has selected Mt. Hamilton, in Santa Clara county, as a desirable place to build the California Observatory, which is to contain the largest telescope in the world. The amount set apart for this purpose by Mr. Lick, is \$800,000. He has pro posed to the Supervisors of the county that he will build the observatory upon the mountain if they will make a good road to it.

IT is a curious fact that both the Republican and Democratic tickets in Now York this year are led by gentle men who were formerly editors. The highest office to be filled is that of Secretary of State, for which Mr. Frederick W. Seward is the Republican, and Mr. John Bigelow the Democratic candidate. The former (who, by the way, is a son of the late Secretary Seward) was for several years one of the editors and proprietors of the Albany Journal. Mr. Bigolow was formerly managing oditor of the New York Evening Post. During the war he acted with the Republican party, but latterly has gone back to the Demec rany, his first love.

In Maryland the reform-democrate have united their forces with the re publicans in a fight to wrest the gov ernment of that state from the robbery of the democratic party. The people of Maryland have been so meredessly plundered, and so dooply plunged in debt, that even the democrats could not bear the infliction, and thus arise and combine with the republican party in an attempt to right their wrongs This shows where relief is to be found. We do not speak as a partisan when we say that the democratic party is a party that gets into debt and never pays out. Not a state ander demoeratic rule but is dooply in debt, and the dobt getting larger.

THE New York Evening Post, which at one time was a supporter of the Liberal party, in speaking of Liberal Republicanism, draws the following pieture of it; "For the last two or three years the Liberal Republican party in this State has been held together solely by 'cohosive power of public plunder,' which it has hoped to secure from the charity or cupidity or fears of one or the other of the regular parties. It has kept alive solely to see what it could 'make.' Now, however, it has obtained all it can get from Domoorats and Ropublicans, and may as well disband. \* \* The party began with the inspiration of high hope and unselfish outhusiasm. Why it failed, how it fell into the hands of political Philistines, it is not now necessary to re call. It is enough that it did fail; and it was no sooner perverted to base partisan uses than the good citizens whose support has been its sole strength fell away from it. Its mistake is that it did not disappear from public view, wholly and forever, at sundown on the first Tuesday of November, 1872."

Ir inflation succeeds in Ohio to day we may look for a general movement on the part of oupitalists and moneyed institutions to call in their loans and contract operations. The Cincinn sti Gazette of yesterday says to has informa tion that a New York institution, which has a very large amount of money lent on mortgages on city real estate in various parts of the country, is having a resurvey and appraisoment of the mortgaged property made by agents sent out especially for the purpose, with a view to forcelosure in case the Demoerate carry the State. Its managers believe, and rightly, that the success o inflation would unsettle values and im poril their loans. On the other hand, if Hayes shall be elected we predict a speedy revival of business and return o confidence. - Indianapolis Journal 12

Tite Petersburg Democrat publishi the following good joke on Hon. Sen-Wike, Democratic Congressman from Pike county, 11 . During the recent session of the County Court at Piltsfield, an Evangolist named Anderson preached three times a day in the pubhe square. During one of his sermons he exclaimel. "Show me the man whom Jesus Christ will not savo! Just at that moment the Sheriff stuck his head out of the court house window and shouted: "Scott Wike! Scott Wike!" The effect on the audience can be imagined.

List of Letters Remaining in the Post Office, at Decatur, Macon county, Illinois, Oct. 18th, 1875. The recent decision of the United States Supreme Court in regard to the

the ontire bench. It declares that the Fourteenth Amendment did not affect the citizenship of women any more than it did of mon, and that, therefore, in this particular the rights of the plaintiff are not dependent upon the amendment, she having been a citizen from her birth, and entitled to all the privileges of citizenship. The amendment prohibited the abridgement by the State of any of these privileges, but did not confor citizenship upon ber. If the right of suffrage is one of the necessary privileges of a citizen of the United States, then the Constitution of Missouri, and of other States, confining it to men, are in violation of the Constitution of the United States, and consequently void. But the Constitu tion nowhere makes the right to vote one of the privileges of citizenship. The States alone define the qualifica tions of voters. The Court proceeds to show that in no State were all citizens permitted to vote, but that each fixed such limitations as it thought best, and none conferred the privilege of suffrage upon women, and yet no objection had ever been made to the admission of any State on this ground. "This right of ably adapted for mechan-suffrage," say the Court, "whon grantcd must be protected. Fourteenth Amendment, which pro-

the United States, does not operate to

polls. Chief Justice Waite rendered

any question settled this is one. For nearly ninety years the people have acted upon the idea that the Coustitution, when it conferred citizenship, did not necessarily confer the right of suffrage. If uniform practice long continued can settle the construction of so important an instrument as the Constitution of the United States confessedly is, most certainly it has been done here Our province is to decide what the law is, not to declare what it should be. We have given this case the careful

consideration its importance demands If the law is wrong it ought to be changed, but the power for that is not with us. The arguments addressed to us bearing upon such a view of the subject may perhaps be sufficient to induce those having the power to make the alteration, but they ought not to be permitted to influence our judgment, determining the present rights of the parties litigating before us. No argument as to woman's need of suffrage can be considered. We can only not upon her rights as they exist. It is not for us to look at the hardship of withholding. Our duty is at an end if we find it is within the power of a State to

withhold. Being unanimously of the opinion that the Constitution of the United States does not confer the right of suffrage upon any one, and that the constitutions and laws of the several States which commit that important trust to men alone are not necessarily void, we

Hair Vigor, For restoring to Gray Hair its natural Vitality and Color.

once agreeable, preserving the restores fuded or gray hair to its original color, with the

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it elenn and vigorous. Its occasional use will prevent the hair from turning gray or filling off and consequently prevent haldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. This standard article is compounded with the greatest care. Its effects are as wonderful and

as satisfactory as ever. It restores gray or fided hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, scothing sensation of great comfort, and the scalp by its use becomes white and clean. By its tonic properties it restores

the capillary glands to their normal vigor, preventing haldness, and making the hair grow thick and strong. As a dressing, nothing has been found so effectual or desirable. A. A. Hayes, M. D., State As-
